Index to Authors for Vol. 24 of the Foundry.

March to August, 1904.

B

Bird, W. W. Lift of Core and Cope..... 172
Bolton, Albert E. Lining and Fluxing a Cupola 177
Buchanan, Geo. Molding a Printing Machine Frame 92
Buchanan, John F. Antifriction Alloys, 57; Corrosion of Metals, 160; Some Uses for Old Crucibles 122

C

Clark, Chas. W. Removable Flask Pin, A..... 77

D

Doyle, John. Slagging a Cupola, 289; Use the Right Name 194

F

Falconer, Kenneth. Foundry Accounting..... 222
Fay, A. E. A Glossary of Metal Founding Terms 126
Field, Herbert E. Carbon in Iron and Steel.... 19
Frohman, H. F. Some Labor-saving Suggestions for the Foundry 275
Fuller, Benj. D. Molding Sash Pulleys, 176; The Core Bench 238

G

Galvin, Dan. A Portable Cupola..... 195

H

Hall, F. W. Molding Machine Practice.....227-278
Hess, Henry. Foundry Costs, Their Analysis and Reduction 113
H. L. Green Sand Bottoms and Sound Castings. 108
Hooker, Howard M. Pig Iron Warrants System and the Foundryman 163

J

Jones, John. Foundry Experiences in the South 197

K

Karow, H. Gating a Malleable Casting..... 171
Kleinhans, Frank B. Preparing Castings for Machine Work 29
Knox, L. L. Basic Open Hearth Steel Castings. 31

L

Leary, Wm. Core Crush, Its Cause and Remedy, 257; Crush of the Mold..... 165
Loudenbeck, H. C. Value of the Chemist and Metallurgist to a Manufacturing Plant..... 225
Loudon, A. M. Core Mixtures..... 237

M

MacDowell, R. W. A Pattern Record, 137; Pattern Costs, 178; Separate Order Costs..... 67
Magee, John. Notes on a Successful Piece Price System, 240; Payment of Labor..... 230
Malone, Harry. Corliss Cylinders with a Half Pattern 193
McCune, John. Bosses on Thin Castings..... 121
Moldenke, Dr. R. Testing Cast Iron, 133; The Engineer in the Foundry..... 234
Morehouse, W. S. Moisture in Molding Sand.. 239
Murphy, Jas. A. Education in the Foundry.... 109

N

Neil, Alex. T. A Plea for the Coremaker..... 272
Neilsen, Geo. C. Molding Machines..... 127

O

Outerbridge, Jr., Alex. E. Recent Discoveries in Cast Iron, 3; The Use of Cast Iron Borings... 169

P

Parry, W. H. Patternmaking in Its Relation to Foundry Costs 276
Pitz, John F. Casting in Cores..... 182
Powell, E. H. Casting Iron Around Steel..... 11
Practical Traveling Man, A. Points for Brass Founders 63, 131, 166

R

Ramp, Paul R. Molding Fly Wheels with Segments 25

S

Schwerin, C. M. Determining the Weight of Castings, 286; Notes on Cupola Practice..... 89
Shed, N. W. Fluxing a Cupola, 129; Limestone in the Cupola..... 71
Spence, David, Cupola Practice..... 72

T

Tone, T. J. Carborundum Fire Sand..... 254

W

Webb, Jas. F. Does Iron Expand?..... 162
West, Thos. D. Fan Power for the Cupola, 64; Methods for Making Beds, 264; Weights for Holding Down 16
Williams, H. L. Pig Iron and Its Constituent Elements 253
Willis, Harry. Technical Education..... 284
Wooden, Clarence E. Aluminum and Alloys.... 194

Subject Index for Vol. 24 of the Foundry.

March to August, 1904.
